SUMMARY

With 8 years of experience, I specialise in assuring software quality through functional, performance testing and automation. I have a solid track record in testing applications such as SaaS, SAP products, Salesforce, APIs, web and mobile applications. Proficient in employing diverse testing methods and tools to pinpoint and address issues, I contribute to developing top-notch software solutions.

WORK EXPERIENCE

Senior Test Engineer, Cognizant Technology Solutions

Jan 2018 - June 2022

- **Testing Methods:** Demonstrated proficiency in manual, performance and automated testing methodologies for cross-platform applications, catering to diverse project scales and ensuring quality
- **Improved test coverage** by 15% through collaborative development of testing strategies with developers, ensuring project requirements were met.
- **Automation:** Adoption of automation frameworks across different SDLC phases, leading to a 20% reduction in release cycles.
- **Agile:** Operated under Agile and Scrum frameworks to complete releases and organized sprints.
- **Mentored** junior QA engineers and shared testing best practices.

Performance Test Analyst, Hexaware Technologies Ltd.

June 2014 - Jan 2018

- Executed comprehensive functional and non-functional testing, covering system integration, performance, and regression testing on web and mobile platforms.
 - **API Testing:** Leveraged API testing tools like Postman and SoapUI to effectively perform functional and non-functional testing of APIs.
 - **CI:** Create and maintain CI pipelines using Jenkins for continuous testing
 - **Performance Testing & Optimization:** Spearheaded performance testing using Loadrunner, Jmeter tools, and profiling efforts, boosting system efficiency by addressing bottlenecks.
 - **Collaboration:** Collaborated with development teams to identify and resolve software bugs.
-

ADDITIONAL INFORMATION

- **Technical Skills:** Test planning, script creation, test execution & environment monitoring, defect tracking & report analysis, stakeholder and project management
 - **Test Management and Other Tools:** Jira, TestRail, Microfocus Quality Center, Confluence, Git, and GitHub, Microfocus Loadrunner, Apache JMeter, SiteScope, AppDynamics, Grafana, Google Lighthouse with puppeteer, SoapUI, Postman, Jenkins
 - **Test Frameworks:** E2E with Cypress
 - **Web development and DB query Languages:** Java, Javascript, HTML, CSS, SQL
 - **Languages:** English C1, German A1
-

EDUCATION

Bachelor of Engineering in Computer Science
Meenakshi College of Engineering

Sep 2009 - Aug 2013
